"Fall Beside Her"

Take my word, I'll try to make it clear, yeah
You could never be like you'd been then
Have you never tried to stay behind?
One touch and they all fall beside her, yeah

It's said that you're the kind to run and hide, yeah
Is it better than to leave to all inside?
Slow down, you're racing fast for now
You'd shine with half your given power

Tria cadw'r brenin yn ei le, yn ei deurnas-saff
Y rhai a lloches yn ei lewys

You see my hands I've been caught at it again, yeah
Another finger serves to single out the blame
Have you never tried to stay behind?
One touch and they all fall beside her, yeah
