"Fuel"

Visit "[Fuel](#)" on MotoLyrics.com

Go tell the captain
There's no waters left
To navigate
I sailed them all for you...
Go tell the engine room
Stop stoking up the fire
We're out of fuel...

Doom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracy...

We'll build new ring roads
To go nowhere in particular
Now you've passed your Highway Code
And make new inroads
Into plundering the Earth
For some more fuel...

Doom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracy...

Go ask the Government
You voted in on trust
Where is our fuel?...

Doom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracy...

Doom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracy...
