You were my best friend since we were ten years old  
Your house was down the block, across the street  
Nightfall came around, momma called me home  
You would beg to come with me  
Your momma had a heart pure as solid gold  
It was such a mystery to me  
Why she wore sunglasses night and day  
You would always wear long sleeves

Chorus:

Fly away to freedom  
Don't ever look back  
The cage door has flown wide open  
And I'll stay here to bury your past

You had plans to run one day  
And I believed you would  
Your daddy said he would make you pay  
If you ever spoke the truth  
All the pain he put you through  
I can only sympathize  
But you were set free on your eighteenth birthday  
The gunshot that ended your life

Chorus:

Fly away to freedom  
Don't ever look back  
The cage door has flown wide open  
And I've stayed here to bury your pas

Repeat chorus:

Fly away to freedom  
Don't ever look back  
The cage door has flown wide open  
And I'll stay here to bury your past

Tag:

The cage door has flown wide open  
And I'll stay here to bury your past
