English

I try to look good out of fear  
I wasn't able to speak here  
I could laugh  
Because you were here

Our story started here  
Under this roof  
Sharing it until now

In this light  
I can also feel your kindness  
Even when that much time flows  
Let's return to the place where you play that TONE

In a lonely and swaying night  
I always want to see you  
Because I want to see your smile  
So get well

The most important thing in this world  
Is to live on this moment  
Guided

In this light  
I can also feel your kindness  
Even though we might get lost again one day  
Let's return to the place where you play that TONE

Even if you're with someone doesn't understand you  
I can hear your sound  
We met for the first time here  
I still remember

At the corner of this wide world  
Meeting you was a miracle  
Even if we get hurt and disappear  
Let's return to the place,our TONE,forever

In this light  
I can also feel your kindness  
Even when that much time flows  
Let's return to the place,our TONE  
Let's return to the place where you play that TONE
