"Astral Empire"

Raging through oblivion, where darkness is forever
Leading towards earth, Apocalypse inside
Infernal imagery to seek beyond reason
Eternal fire ready to arrive

No god shall save this earth
To believe the non existent, third
No god shall save this earth
To believe the non existent

Third from the sun

Sleep among the ruins of this sphere
Were no man is safe in your eyes
Masters of sin, deliverers of pain
Hear the screams of holy lands

No god shall save this earth
To believe the non existent, nah
No god shall save this earth
To believe the non existent, nah

I save my soul, my soul
From the lies of this world, this world
Never again, never again
I'd rather die
