This time we went too far  
This time we opened the scars  
To feel destruction  
Inside this worlds addiction

Last dance for the new generation  
Beloved ones, virgins of war  
Never seen the true colors of sufferance

Forever, face the face of war  
Forever, we shall face the face of war

We shall not fall, we shall stand tall  
In the midst of all this pain  
We will face the face of war

'Til the end of time, worlds will collide, people will die  
And everyone you trust will turn on you  
To save themselves from the devil's grip

Stay on guard, make sure you don't drift away  
Prepare for battle, bloodbath of innocent man  
Guilty for taking life, for taking life

Corpses of dead men, surround me  
Release me from this sanctuary

Forever,. face the face of war  
Forever, we shall face the face of war

We shall not fall, we shall stand tall  
In the midst of all this pain  
We will face the face of war

Forever, face the face of war  
Forever, we shall face the face of war

We shall not fall, we shall stand tall  
In the midst of all this pain  
We will face the face of war

Forever, face the face of war

Forever, we shall face the face of war

We shall not fall, we shall stand tall  
In the midst of all this pain  
We will face the face of war
