"Circle Of Sickness"

Visit "[Circle Of Sickness](#)" on MotoLyrics.com

Behind the biochemical experiments
Potions of infected substances
Creating new malevolent viruses
Into clandestine laboratories
perverted minds are developing idiopathic reactions
with their macabre purposes

Penetrating the dermatological system
Inner skin protuberances
Obstructed veins with poisoned substances
Bacterial invasion in the molecular sanguineous

Unspecified diagnostics are chaotically emerging inner
humanity
Petrified in Terror by the survivor's appearances
No cure for this abominable act of sickening mentality
Monstrously the vast leprosy are infecting the races

Mutated masses fighting against their uncertain future

Exclaiming a recover for their contagion
Scientific assistants performing phlegmatic torture
A circle of sickness, A circle of Devastation

Behind the biochemical experiments
Potions of infected substances
Creating new malevolent viruses
with their macabre purposes

Perverted minds are developing idiopathic reactions
Into clandestine laboratories, Circle of Sickness!

Spreading The dermatological and immune diseases
Increasing the level of chemical and biological
bacterias
Infectious liquids are perspiring through the victim's
pores
Transmuting the plague with side effected reactions
