Convicted personalities living in disgrace
gravity over an uncertain destiny of misery
Convincing to crime with intimidating intricacy
forbidden executions are satisfying their anxiety

Creating an unsafe world of atrocities
Uncontrollability of subliminal messages
Horrorfying the invulnerable society
Sickening publicity of subconstituent sages

Intimidated by the criminality
Intrigued by the authorities
Disrespected by immune society
Humiliated by corrupted impunity

Sights... of repressed identities
Glance... of psychotic incognitos

Unrecognized victims are exclaiming resignation
Nameless voluntaries are haunting conviction
Martyring confused brains, reaching answers from
unterminated files of macabre accouterments
Lying to humanity with disgusting solutions about
Incomplete cases of unclassifiable expedients

Anonymous identities are measuring violent acts of
violations
Humiliating passages by forerunners of Corruption

Convicted personalities living in disgrace
gravity over an uncertain destiny of misery
Convincing to crime with intimidating intricacy
forbidden executions are satisfying their anxiety

(right side)

Shortening their life to the septic destiny of misery
Forbidden persecution are satisfying their anxiety
