So near, so close  
Ohh, something bad is seen  
But I seem to be only, only one that can see  
There is a darkness coming

And they, the others, they don't know a thing what's  
next  
But I'm not here to say  
What should be done 'bout this  
I just lift my eyes to watch

I saw it coming, something bad  
I saw it coming, something bad  
I saw it coming, something bad  
I saw it coming to an end

So near, so close  
Ohh, something bad is seen  
But I seem to be only, only one that can see  
There is a darkness coming
