Vapor  
As thin as it gets  
I stare right through  
The severe sickness in this room  
Not mine  
It comes from you

Soul cold  
Indeed  
There won't be a time when I'm at ease  
Increase coldness  
Increase ignorance

Please  
Rewind and look at you

As on film  
You will see a mask of shame  
I think you will  
Perceive  
Your position in life  
So unworthy

Find and twist the answer  
Save no one from harm  
As seen in the vision  
Sick sleep sick dead earth
