As through your shattered eyes  
It all came together  
And your heart cries  
Weeping through the weather

Another way to change your mind  
I'm weaker than they say  
To leave this all behind  
The only way to stay

Don't you know  
I'm the end of what we'll be  
And right below us  
The last things you'll see

In the water  
I saw you drown  
Down the water  
I saw you drown

In the water  
I saw you drown  
Down the water  
I saw you drown

As through my shattered sight  
You're no longer here  
And my heart cries  
Sleeping through the light

Another way to change my mind  
Never is the day  
To leave it all behind  
The only way to stay

Don't you know  
I'm the end of what we'll be  
And right below us  
The last things you'll see

In the water  
I saw you drown

Down the water  
I saw you drown

In the water  
I saw you drown  
Down the water  
I saw you drown

In the water  
I saw you drown  
Down the water  
I saw you drown

In the water  
I saw you drown  
Down the water  
I saw you drown
