New York city space ship on a moonlight mass
Tall black coffee everything is outclassed
The bench warming brother just kills for a gas
When the L train starts moving I just know it's
going to last

Be my man, be my man
Oh, could Tom and Jerry be my man?
I wanna give that Michael Moore a dollar
Oh, could Tom and Jerry be my man?

It's hard to keep me hungry on a noonday walk
Still life frozen but this girly won't talk
That X rated violence make it old mixed with new
Just what's truly outrageous I'm just
dieing to be true

Be my man, be my man
Oh, could Tom and Jerry be my man?
I wanna give that Michael Moore a dollar, man
Oh, could Tom and Jerry be my man?

Hard to keep me hungry on a noonday walk, baby
Hard to keep me hungry on a noonday walking to you
Hard to keep me hungry on a noonday walk, be my
man
Be my man, be my, be my man
