

Catch 22 "Underneath"

Visit "[Underneath](#)" on MotoLyrics.com

When you build a world
Made out of lies
The fortress of shame
Crumbles in time
[verse 1]
Turn my back and you're cutting on me
Face to face it's a different story
How ya doin' how have you been
I just laugh at your two faced grin
[pre-chorus]
These eyes are open wide
They've seen it all
I know how to play the game
It's all the same
It dont take long
To see through the slime
[chorus]
I - I can see
Through your lies
Underneath
Lies and deciet
Betrayal and shame
Underneath
It seems you're all the same
[verse 2]
No guts no goddamn glory
You stand and shake man I got no worries
Time after time you watch your bridges burn
I dont think you'll ever fucking learn
[pre-chorus]
[chorus]
When you base your life
On deciet and lies
The dust you kick
Will end up in your own eyes
[solo]
[chorus]
