Go hard..  
Say What you are thinking.  
Slow and ..  
You'll get no respect if you can't  
Say what you feel, be sure  
Feel your execution perfect  
Go hard  
Say What you are thinking  
Slow and  
You'll get no respect if you can't  
Say what you feel, be sure

Feel your execution perfectly

And I trust you will  
Definitely  
Mmmmm...Uncensoridly  
When you get the trill  
Take it and scream  
People fear me knocking, yeah

To think that no one else is ever to feel it in  
The way you can look up is no sin  
No one can think about you negatively

Hoaw Negatively

Go hard  
Say What you are thinking  
Slow and  
You'll get no respect if you can't  
Say what you feel, be sure  
Feel your execution perfect  
Go hard  
Say What you are thinking  
Slow and  
You'll get no respect if you can't  
Say what you feel, be sure

Feel your execution perfectly

Make them listen till  
They can all see  
Their hypocrisy  
When they realize  
They can all see  
People fear me knocking

To think that no one else is ever to feel it in  
The way you can look up is no sin  
No one can think about you negatively

How Negatively

To think that no one else is ever to feel it in  
The way you can look up is no sin  
No one can think about you negatively

How Negatively

Mmmmm... Negatively.
