Come close to me
Come cross the bridge

I need to know what you have to say to me
(We've been waiting all night long)
What have you got to say to me?
(We've been waiting all night long)

Tell me all about it
(We've been waiting all night long)
Tell me please
(We've been waiting all night long)
Oh, I know

I know it works for me
As we cross the bridge
The burning bridge
With flames behind us
We front the line

It's you and me, baby, against the world
(We've been waiting all night long)
I've got to know what you have to say
(We've been waiting all night long)

What have you got to say?
(We've been waiting all night long)
(We've been waiting all night long)
I got to get love, listen now
(We've been waiting all night long)

Tell me all about it
(We've been waiting all night long)
All night long
(We've been waiting all night long)
All night long
(We've been waiting all night long)
All night long

It works for me
It's you and me, babe
(We've been waiting all night long)

Against the world
All night long

It works for me
Let's cross the bridge
Oh, I know
(We've been waiting all night long)

I know, I know
(We've been waiting all night long)
Waiting all night long

It's you and me, babe
When you stand next to me
It's all right
It's you and me, baby
Against the world
