People say forever like it's no big deal  
Promise that they'll never when they probably will.

Act as though they've got some kind of crystal ball or  
key  
To let them see exactly what the future's gonna be.

The rivers that we thought would always run go dry  
Stars burn brightly then they fade away  
I don't know how long this love will be strong  
But it's more than one more day.

Kings and ancient empires we thought would always  
stand  
Crumble into nothing under wind and sand.  
Who can say how long they're gonna feel the way they  
feel  
All I know is right here by your side I know it's real.

Rivers that we thought would always run go dry.  
Stars burn brightly, then they fade away.  
I don't know how long  
This love will be strong  
But it's more than one more day.

Time's just a second hand that ticks away  
What is forever but a string of one more day

I don't know how long  
Our love will be strong  
But it's more than one more day.

I know it's more than one more day.
