"Grace"

I'm on my knees
Only memories
Are left for me to hold

Don't know how
But I'll get by
Slowly pull myself together

There's no escape
So keep me safe
This feels so unreal

Nothing comes easily
Fill this empty space
Nothing is like it seems
Turn my grief to grace

I feel the cold
Loneliness unfold

Like from another world

Come what may
I won't fade away
But I know I might change

Nothing comes easily
Fill this empty space
Nothing is like it was
Turn my grief to grace

Nothing comes easily
Where do I begin?
Nothing can bring me peace
I've lost everything
I just want to feel your embrace
