Strange how it can be
Dark for you is dawn for me
Time has intervened
Summer wind is autumn breeze

Can I meet you in between?
Will you be there?
Let me hold you
Sight unseen
Still in the air

At the fall of night
Realise how much I miss you
Move from dark to light
I travel time to softly kiss you

Can I meet you in between?
Will you be there?
Let me hold you
Sight unseen
Still in the air

Strange
Strange
Strange

Will you meet me in between?
I will be there
Come and hold me
Sight unseen
Still in the air

Strange how it can be
Time has intervened
