Everybody play, play it so safe  
No one wanna mess, mess with the rules (x4)

I feel like my head may explode  
All my friends keep me alive though  
I feel like myself I'm able  
To get my, to get my

My release, my release  
My release, yeah my release

I keep my cause close to my chest  
My heart is alone, eyes undress  
My heart! I wear my heart  
On my sleeve

[Hook]  
Underestimate me  
Underestimate the girl  
(Go on, underestimate her! )  
Underestimate her

You keep pretending your happy  
You keep reading your magazine  
Your baby is fuckin' me

You're the one you say you hate, you're  
Every chance you had to waft it off  
You probably made a big mistake

[Hook x2]

Everybody play, play it so safe  
No one wanna mess, mess with the rules (x4)

No one wanna mess, mess with the rules (x4)
