I'm not content to be with you in the day time
I'm not content to be with you in the day time
I'm not content to be with you in the day time
Though I want to be with you all of the time
I I'm not content to be with you in the day time
Though I want to be with you all of the time

The only time I hear a lie is when you shout it loud

Though I want to be with you all of the time
All day and all of the night
Yea, I want to be with you all of the time
All day and all of the night
Though I want to be with you all of the time
All day and all of the night

All day and all of the night
All day and all of the night

I believe that you and me will last forever
Yea, all day and my time yours with me, never
I believe that you and me will last forever
Yea, all day and my time yours with me, never
I believe that you and me will last forever
Yea, all day and my time yours with me, never
The only time I feel alive is by your side
The only time I feel alive is by your side

Though I want to be with you all of the time
All day and all of the night
Yea, I want to be with you all of the time
All day and all of the night
Though I want to be with you all of the time
All day and all of the night

All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night

All day and all of the night

The only time I feel alive is by your side

All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night
All day and all of the night (last forever)
All day and all of the night (when I'm by your side)
All day and all of the night (last forever)
All day and all of the night
