Action, action,  
Words are only in my mouth  
Action, action, action  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
You said you'd meet me there  
But you never came  
You let me down  
I'm used to it now

Action, action, action  
Words are only in my mouth  
Action, action, action  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth

You said some shit about me  
But I don't mind  
If you don't respect me  
All that means is that you can't change me

Action, action, action  
Words are only in my mouth  
Action, action, action  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
Yeah, action, action

You have a problem with me  
'Cause I'm a girl  
I'm a feminist  
And if that offends you  
Then fuck you

Action, action, action  
Words are only in my mouth  
Action, action, action  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
The only thing that means anything now  
Is action, action

And when you're close to my heart  
It's undyingly yours  
But best not to forget  
It's undeniably mine

Action, action, action  
Words are only in my mouth  
Action, action, action  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
The only thing that means anything now  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
Words are only in my mouth  
Words...  
Words are only in my mouth  
In my mouth [x8]

Oh, I've got your attention  
Look how I caught your attention  
Yeah, I got your attention
