Skeleton you are my friend  
But you are made of bone  
And you have got no flesh and blood  
Running through you to help protect the bone

Skeleton we have been friends for years  
And you have seen me through some trials  
And tribulations and some tears  
But everybody thinks I'm weird  
And I should have known  
That it wouldn't be long  
Until you, you've got me standing in an awkward  
position  
With unwanted attention and a need for explanation  
And it's not that I'm letting go of you  
But I don't know what to do  
Skeleton we are so close  
But you have got no body  
So why do you insist on wearing clothes  
Skeleton when we were young  
It was easy  
Even though the other kids  
They would tease me  
But I was only seven I had you  
But now I'm twenty-two  
And now it's different, when I take you out  
And you, you've got me standing in an awkward  
position  
With unwanted attention and a need for explanation

And it's not that I'm letting go of you  
But I don't know what to do  
'Cause sometimes at night,  
I dream of the most terrible things  
I take a hammer and I creep out of bed  
And I raise it high  
And I smash your head  
Fibular and tubular  
And ribs and cages, too  
In fact, while I'm here  
I'll smash the whole of you

Smaaaaaaaaaaash !  
But Skeleton, you are my friend  
And I could never bring your life to an end  
Yes Skeleton you are, you are my friend  
And I will be there for you until the end  
And even though, when I take you out  
You've got me, you've got me standing in an awkward  
position  
With unwanted attention and a need for explanation  
I could, I could never let you go  
And that is all I know  
And that is all I know  
And that is all I, that is all I know  
And that is all I know, know
