Everybody playing, playing so safe
No one wanna mess, mess with the rules

I feel like my head may explode
All my friends keep me alive though
I feel I might survive alone,
If I get my...

My release, my release

I keep my cards close to my chest
My heart is otherwise undressed
My heart is on my sleeve

Under-estimate me
Under-estimate the girl
Go on, under-estimate her

You keep pretending you're happy
You keep reading your magazines
But baby is fucking me
Love the ones you say you hate
If you choose to hate the ones you love
You probably made a big mistake

Under-estimate me
Under-estimate the girl
Go on, under-estimate her

Everybody playing, playing so safe
No one wanna mess, mess with the rules
