If the clouds would only clear,
It won't be long 'til he' standing here,
If the wind will cease to blow,
Then he'll stay with me anywhere I go,
If the wind will cease to blow.

Chorus

Moon shadow,
He's there but barely visible,
Moon shadow,
When I'm scared and fairly miserable,
A watch for me he'll keep,
So I might fall asleep.

He's the only friend I need,
He'll always follow when I take the lead,
Beside me now he'll lay,
I can close my eyes and I know he'll stay.

Chorus

Around me things may creep,
He'll keep me safe and he'll let me sleep,
He'll watch all through the night,
Then he'll creep away with the morning light,
But only when it's light.

Chorus
