Visions about you bring tears to my eyes  
All that surrounds you were secrets and lies  
You were my strength you were my dream  
We were a perfect team you know

Our love was stronger than the winds of time  
Could hold you longer till the day I die goodbye,  
goodbye

The love songs I wrote, I cannot sing them anymore  
This is all your fault 'cause you walked out the door  
You were my strength you were my dream  
Love hurts, when it's not what it seems oh oh

Our love was stronger than the winds of time  
Could hold you longer till the day I die goodbye,  
goodbye

Our love was stronger than the winds of time  
Could hold you longer till the day I die goodbye  
Our love was stronger than the winds of time  
Could hold you longer till the day I die goodbye,  
goodbye
