Keep me in your heart  
Each lonely no match you're away  
Keep me in your heart  
Don't let our lot to none to be  
Just a memory

Someone else has ice  
May rich and try to still your heart... away  
But keep me in your heart  
Remember all we share today  
Don't be there a stray

Never let me go  
It's you alone that I adore  
Darling don't you know  
Your everything I live in fore  
Now and every more

Keep me in your heart  
Please don't forget that I belong... to you  
While we're par apart  
My love what ever as you do  
Promise to be true

Keep me in your heart  
I need your love, darling keep in your heart  
I need your love, darling keep in your heart

I need your love, darling keep in your heart  
I need your love, darling keep in your heart  
I need your love, darling keep in your heart  
[Fade out]  
I need your love, darling keep in your heart...
