I force you sweetly to kiss me
I force your arms drop me tight
My heart is acting so frisky
'Cause love... is with me tonight

I force your blue eyes to charm me
Darling I'm doing all right
I know that nothing can harm me
For love... is with me tonight

Wish I could borrow
A million more tonight
Because tomorrow
May a bring me this the light

I-I-I trod the moon light to guide me
Shining it's heavenly light
Darling I got to beside me
Yes love... is with me tonight

Wish I could borrow
A million more tonight
Because tomorrow
Many a bring me this the light

I trod the moon light to guide me
Shining it's heavenly light
Darling I got to beside me
Yes love... is with me tonight
Ah love... is with me tonight
Yeh!
