"When I Go Home"

When I go home... what will my father say
Will he welcome me or will he turn away
When I go home will he come done the things I done
Or a look with a sorrow at this way word a sun

What will we do... when I work thought the door
Will he take me in his arms forever more
I always ask myself when I kneel down to pray
What will he say when I go home on judgment today

I always ask myself when I kneel down to pray
What will he say when I go home... on judgment today
