

Caterina Valente "With Love"

Visit "[With Love](#)" on MotoLyrics.com

With love
The world can be
A wonder land an ecstasy
A plays of lasting spring
Were angels sing
Their melody

With love
You came my way
And change my life
That wonderful day
In sweet return
I will be true
With our heart that feel with love
With love for you

With love
The dark is night
His touch with start
That shine so bright
A sky
That once was crane
Is now our blames
With one grows light

With love
To guide the way
I share with you
Each wonderful day
And through the years
I will be true
With her heart that feel with love
With love for you...
