Carolina pines

C F

Just an old house with the roof falling in

C F

Standing at the edge of the field

C F Fm

Watching the crops grow like it's always done before

C F Am G

Nobody lives here anymore

F G C Am

Well the sun's going down in the Carolina Pines

F G C Am

I'm a long way from home and I miss that love of mine,

F G C Am F G C

Broken windows, empty doors, nobody lives here
anymore.

Old memories come whistling like the wind

Through the walls and the cracked window panes

Now that old sun is stealing across a dusty floor

Nobody lives here anymore

Well the sun's going down in the Carolina Pines

I'm a long way from home and I miss that love of mine,

Broken windows, empty doors, nobody lives here
anymore.

Nobody lives here, anymore
