Kate Wolf Cornflower blue

E A E

Cornflower blue bloomin' in the morning sun,

Fism H E E7

tiny flowers that grew from when our love had just begun.

A E

Long ago we planted, each dry and dusty row

Fism H A E

how long it has taken for the seeds of love to grow,
cornflower blue.

E A E

Cornflower blue, like the faded shirt you wore,

Fism H E E7

standing in the shadows, when I opened up the door.

A E

The smile in your eyes, when you said hello,

Fism H A E

Held me tenderly and it would not let me go,
cornflower blue.

A E

Cornflower blue, deeper than the evening sky,

Fism H E E7

peaceful as a river, bluer than goodbye.

A E

Blue like the diamond, when the light shines true

Fism H A E

if love came in colours, I'd choose this one for you,
cornflower blue.
