Little bird up in the sky  
Are you up there looking down on me  
Feel so happy I could fly  
Love has lifted me right off my feet  
And nobody told me it could feel this way (ahh)  
I never knew that it would be so sweet  
Ever since you caught my eye  
Something crazy has come over me, and I

I, I wanna be your everything  
And I'm one step closer, yeah  
I, I wanna be your everything, whoa ohh

Little one I need to know  
Are you real or is it just a dream  
Everything you touch is gold  
Everyday without you incomplete  
Do you remember when we met that night (ahh)  
You were the only one that I could see  
And I knew you would be mine  
Find your love and it will set you free, and I

I, I wanna be your everything  
And I'm one step closer, yeah  
I, I wanna be your everything, whoa ohh

And if you love me, I will say  
Sha la la la la la la la la  
We'll be together everyday  
Ooh nah nah nah nah nah nah nah  
'Cause no one makes me feel this way

I, I wanna be your everything  
And I'm one step closer, yeah  
I, I wanna be your everything, whoa ohh

I, I wanna be your everything  
And I'm one step closer, yeah  
I, I wanna be your everything  
Whoa, ohh ohh
