At the end of my street  
That's where we all meet  
Talk about nothing nowhere to go  
You're into that scene  
But inside I could scream  
It's a desert where nothing can grow  
I would stay here if I could  
But I know it would do no good  
Maybe someday you will understand

Something in me wants to reach with both hands  
Go over the edge and see where I land  
Something in me wants to know what's out there  
It's something that I've gotta do  
It's not you it's something in me  
Something in me

You're bathed in the light  
Each night after night  
Watching your life pass you by  
I know you had your dreams  
But now it just seems  
You've settled for less, why should I  
I know you're scared that I'll get hurt  
But don't you think it's so much worse  
To give it up before you even try

Something in me wants to reach with both hands  
Go over the edge and see where I land  
Something in me wants to know what's out there  
It's something that I've gotta do  
It's not you it's something in me

If I listen to my voice  
It leaves me no choice  
I would stay here if I could  
But I know it would do no good  
Maybe someday you will understand

Something in me wants to reach with both hands  
Go over the edge and see where I land  
Something in me wants to know what's out there

It's something that I've gotta do  
It's not you it's something in me  
It's something in me  
It's something in me  
It's something in me
