"Venus Dementia"

Visit "[Venus Dementia](#)" on MotoLyrics.com

Dormant amidst the devious
Detaching from prevalent ruins
Promiscuous contemplation
On the verge of dementia
Obscenity incarnate
Laughter giving life to thee

A phantom to reappear
Akin to the scarlet whore
Elusive muse to the deteriorated
Precious demonic cunt
Eager to beget

Soulraped yet bewildered

Scourged by the "last of the stars"
Contagious emanation deriving
From a throne of excrements and gold

Infinite void thus lust concealed
Devouring revenant to subsist on "lie and murder"
Poisoning light of Venus
Bereaving this mortal shell

A phantom to reappear
Laughter giving life to thee
