It's a great big world to a scared little girl
If you'd smile just right no one knows you might have
A heart full of pain and a soul that can't reign
And a stomach full of butterflies

All that I wanted was just to feel safe
Safe in your arms
Say you didn't mean to
Say I wouldn't understand
But it's time you say something
God knows it's the one thing I need
And the heart you broke
No it wasn't just anybody's heart

So I bit my nails and I held my breath
And I said "I'm fine" yeah I did my best
But you can't tell me you never knew the truth

Of all the fear I felt, how I worried bout you

All that I wanted was just to feel safe
Safe in your arms
Say you didn't mean to
Say I wouldn't understand
But it's time you say something
God knows it's the one thing I need
And the heart you broke
No it wasn't just anybody's heart

I was yours, I was yours
And the heart that you broke
Was devoted and pure
And it wasn't just anybody's heart

la da do do do la da do do do
la da do do do la da do do do
