You're bringing out the Elvis in me  
You're bringing out the Elvis in me

Just like a fossil  
Frozen in time I could not move  
My heart, my soul, my feet  
Then you unearthed me  
And put me in a hot pulsating groove  
Now I'm a slave to the beat

You're bringing out the Elvis in me  
Making my hips want to swing  
You bring out the Elvis in me  
Making me burst out and sing

Because I think you are so nice and cool  
And some people say  
You're so square  
But I don't care

You're bringing out the Elvis in me  
You're bringing out the Elvis in me
