You just had your heart broken for the last time
Your love is just as bruised and beaten as mine
Goodbye is the only word you'll never hear me say
Slow down, There's no rush, I'm going nowhere
Around you, forever I'll be, I swear
So let me be the next first step that you take

And this will be stronger
Last even longer
Than the sun in the sky
And this time forever
We'll not surrender
And we're going to find
Love's not a leaver this time
Love's not a leaver this time, time

I knew someday I would get to look right
Into the open door that waits in your eyes
By now, is the moment I've been waiting for
And this will be stronger
Last even longer
Than the sun in the sky
And this time forever
We'll not surrender
And we're going to find
Love's not a leaver this time, time
Love's not a leaver this time, time

Every empty kiss
Was just the road to this
Right where we're standing
If nothing else I know
This road of letting go
We'll hold on

I will not leave you...

And this time forever
We'll not surrender
And we're going to find
Love's not a leaver this time, time
Love's not a leaver this time, time

You just had your heart broken for the last time
