[1:]

Slaves of Jesus lick the Holy Mother Mary's cunt  
Lambs befallen by worms are sodomized by leprous  
saints  
Eyes of God are burning, fall into the evil land  
Drink the wine of Satan, hear the gospel of the  
damned!  
Commander of dark gods in ritual sleep  
Come forth through the void of eternity  
Transform spectral lives through the vast fields  
obscure  
Grant magical skills to drink angel blood pure  
Mortal sin, apocalyptic minds  
Revelation of death to the world of the blind  
Disharmonic unity, enemies of the creation  
Rising titans, force of desecration  
Valley of Hell, atrophic land  
Cardinal power of archangels damned  
Horrific sight, morbid priests of the earth  
Sitting upon the four corners of the world  
Basilisk force  
Dancing eye of mass extermination  
Aeon of tyranny, cosmic hell, sea of renewal  
Rape us sweet, Zion tremble, we are invincible  
Our armies ride against New Jerusalem  
Our magic ruins the world  
Satan cometh with signs and wonders  
Holy golden doors are shut forever, them to suffocate  
within  
A sea of black tears from the mouth of a whore  
Siblings fighting each other with poisoned swords  
Vision from the waste sepulchral lands  
Final plea of sinners in agony and death  
Commander of dark gods in ritual sleep  
Come forth through the void of eternity  
Transform spectral lives through the vast fields  
obscure  
Grant magical skills to drink angel blood pure  
A spring never again to cease, erupting malicious  
disease  
Black crystal fluid of the wicked strong, racing dance  
of demons

Beheld in sight of the cyclopic grinning moon  
In the temple of mystical suffering  
A six legged beast with the ten horns of damnation  
And seven emerald crowns hath given birth to our new  
messiah  
Kaos vortex throne of night, eating crippled beasts of  
god  
A throne of steel and horrors, surrounded by black  
sepulchral frostwinds  
Pestilence blessing  
Dragon claw hammers, dragon spitting sulphur  
Ecliptic spheres, sunrise vortex  
The galley arks are sent for us, and the powers  
Gei-Hinnam eternal - thunder, lightning, doom and  
kaos  
Cloudfallen majesty, Dark Lord now come!  
Bestow animation upon the unliving yet restless and  
eagerly awaiting  
Inexorable fate, destruction of the grave  
The sleeper will wake and the world will bleed  
Infernal race - unholy blaze - sleeper awake - DEATH IS  
LIFE

[II:]

Parched with thirst my lips my throat, I am condemned  
I gnash my teeth, let me confess unspeakable deeds  
As the lake waters close above me, consolation in  
deathlike rapture  
I might find - rewarded by the guilt-less joy instead of  
horrors  
Avenge my blood in ecstasy and oblivion, and ravings  
of insanity  
Another race of beings rise, by the terrible vengeance  
of my hands  
Aided by a glimmering light which turneth into a  
tempestuous shine

[III:]

Calls from the past to rise and rule - works of  
Ungodliness  
Conjuration of the flesh, Lord Majesty appear unto us  
And get the seven holy virgins, in a state of  
superhuman trance...  
Gaia dissolve in dark matter, Tetragrammaton hosts  
killed by  
Fire and fear, landscapes bursting under the feet of  
the angels  
Elder Lords Invincible Ones - the claws of evil, doom...  
The love of god is banished by a curse of the wicked  
ones  
And Hell is the centre of the universe

Terror of a dying world, infernal black devastation  
Blood red slaughter hell, TRANSFORMUTATION!
