Where did I misplace my faith? Where did I set it down?  
Which one the day that I forgot? What this was all  
about?

And I came so close to throwing it all away  
But I'm taking it back again

So come and rejoice, come and rejoice  
What was lost is found

When did I get so sensible? Make me a fool again  
My life was a half empty glass now it's half full again  
And this road we take is never an easy place  
But somehow we've found our way

So come and rejoice, come and rejoice  
And you don't even have to make a sound  
I feel it in your touch, you sing it with you eyes  
What was lost is found

So come and rejoice, come and rejoice  
What was lost is, what was lost is  
What was lost is found  
What was lost is found
