[Mission / Avlasenko]

Life never stops  
And the time will stop and wait for... No one!  
But we won't know who's the last one  
To cast shade on Sands of Time?

Sun fills life with it's warm light  
And your words will never stop... Sunlight  
And it's my choice every morning -  
Start my life as something new

[Bridge I]

Playful wind will blow me in the face  
- Hey, wake up, it's time to shine! -  
And the Sun will send me to the place  
Where doubts and shame will not be mine...

[Chorus I, II, III]

What if there's no time tomorrow  
To run my usual way?  
Sun will give no way to sorrow  
Warming up my hope and faith

Evening comes back, giving me a reason  
To light up my eyes with smile - gently  
For what is gone, with it's hasty feelings,  
Will dissolve in useless dust

[Bridge II, III]

Let the past die quietly away  
Fill with reason each new day  
Don't stir up the ashes of before -  
Just forget and lock the door...

[Chorus IV]

The Time is flying by us  
Not all is as it seems  
Maybe I'm growing wiser  
Time will never break my dream
