### "Gates To Nowhere"

Gate to paradise is open  
Come on, my boy, come on  
You can forget her  
With the help of height

With a kick about asphalt  
You'll ultimately die  
You will get into the illusion world  
And pain is out

Suicide is the key for freedom  
Key for the Gate of the other world  
Where evil and lie don't dwell  
Where life will be happiness

Suicide - light in the end of tunnel  
Suicide - beginning of the new life  
Suicide - reality of the being  
Suicide - death is bringing luck
