"In The Presence Of Greatness"

Visit "[In The Presence Of Greatness](#)" on MotoLyrics.com

I rise from the depths of the nothing
I'm crawling through razors and shards
Awaiting the final extinction
I am the depression of life

Broken
Endless
Pointless
Life

I was dead long before you have known me
I'm the shadow that's blocking your sun
From the depths of the cold and forgotten
From the heavens of beautiful death

I am

Broken
Endless
Pointless
Life

I was dead long before you have known me
I'm the shadow that's blocking your sun
From a cold life so wrong and forbidden
The smile of beautiful death

I am

Filling my body with hate
I once known there's a meaning to claim
Through the ways of depression and death

I have tasted the pleasures of pain
Filling my body with hate
Can you save me from what I have made
Through the pain I have worked to create
Lifeless soul without purpose or end

I am

Broken to pieces of meaningless being

I am not the one to forgive
Lost in the void of the greatest of beings
I'm tasting the blood that I breathe
Rising again from the depths of the nothing
A void of extinction I am
Crawling again through the pointless of beings
The final depression of life

I am

I crumble in the presence of greatness
I kneel before the darkest of lights
I crumble in the presence of greatness
I kneel before the darkest of lights
