"Suicide Asteroid"

Through nature's eye, earth sinners fly
On a suicide asteroid
Trans-mutation - space rejection
The hellish fleet must die
Grim reflection in the sky
Dark mirror of manblind
Aliens walking amongst you
Twist directions knife yea!

Half way to paradise
Black wizard pauses flight

Captain desolation - disaster in command
Fatal destination - astral suicide

Tornado nation ride inside
This tombstone galaxy
Unknown mission apparitions
Dictating your destiny
Architect of catastrophes
Non - physical reality
Through kaleidoscopes of burning tears
An eternal odyssey oh yea!

Full steam to paradise
Green wizard grants delight

Planet head exploding - earth becomes your mind
Spectral domination - astral suicide

Suicide asteroid - destiny null and void
Suicide asteroid - satan's realm overjoyed!
