"Without You"

Visit "[Without You](#)" on MotoLyrics.com

Evil never dies, love & death; are close
Flowers withered quickly, I lost you
.... forever

I am diving in the dream
I am thinking this is death
Death, this is what I want now
In my death I'll get the quiet
I'll get quiet and happiness

Without you, I can't see this world
Without you, I can't hear sound of leaves
Without you, my soul is dreaming

I can flush in the sky
In the sky and strain the clouds
I can conceive price of self
Price of self-devotion
I can live in my world
In my world without you

Without your hands, my heard is a frozen rill
Without your eyes, I'm losing meaning of life
Without your, internal world in my
Without your, my world is emptiness
Without your, my life has died

Evil never dies, love and death are close
Flowers withered quickly, I lost myself
