That's it  
You crossed the line  
You're done  
You're out of time  
You're dead to me

Don't try to give me that  
Sad, little face  
Even when you know  
You don't have a place  
In my mind

Cause you messed up the first  
You screwed up the second  
And three times is never the charm  
As much as you beg  
As much as you plead  
As much as you yell  
As much as you scream  
You're not going for a fourth  
Cause you're all out of chances

Don't think about coming  
Knocking at my door  
Crying and asking  
For just one more  
Useless chance  
It doesn't help  
Where you stand

Cause you messed up the first  
You screwed up the second  
And three times is never the charm  
As much as you beg  
As much as you plead  
As much as you yell  
As much as you scream  
You're not going for a fourth  
Cause you're all out of chances

Go away  
Leave me alone

I'm not gonna answer the phone  
Don't stay  
You should know  
I'm not gonna answer the phone

Three times is plenty  
You really shouldn't need me  
Go find someone else  
Who'll take your remorse  
Cause you know  
I won't

You messed up the first  
You screwed up the second  
And three times was never the charm  
As much as you'd beg  
As much as you'd plead  
As much as you'd yell  
As much as you'd scream  
You never gonna get a fourth  
Cause you've lost all your chances

Yeah

You lost all your chances  
You took them for granted  
You never will get them  
Back, too bad  
You lost all your chances
