Love me like an armchair  
Hang me up on your wall  
Put me under your pillow  
Put me up in the hall  
Open me like a door  
Like a window you can see through  
I'll sweeten you like sugar  
When the world has been fucking with you.

I'm not going anywhere  
With your pepper at tea  
Grow me bug in your garden  
Sail me off on your sea  
I'm the gold in your filling  
I'm the glue on your shoe  
I'll sweeten you like sugar  
When the world has been fucking with you

If I make myself small  
You can take me with you  
I'll sit quiet in your pocket fix the holes up for you  
Be your street map your bible  
And your ticket ride home too  
I'll sweeten you with sugar  
When the world has been fucking with you  
I'll sweeten you with sugar  
When the world has been fucking with you
