1984 Kathy Mar

Call him Lord  
Call him Lord  
Hide his title and his glory  
Teach him Earth's forgotten story  
Call him Lord  
Watch his ways and dog his heels  
Learn how this young lordling really feels

To hold our worlds together  
A grasp as light as feather  
A courage greater than the rest  
So we test

Call him Lord  
Call him Lord  
Find him wanting take his life  
Duty's burden given with the knife  
Call him Lord  
Family honor makes him ride  
By the broken princeling's side

And when you have to tell them  
You had no choice but to condemn  
A coward cannot rule the sky  
He must die

Call him Lord  
Call him Lord  
Take away the lord that died  
Send another son here to be tried  
Call him Lord  
Honor will be served at last  
In the darkened cradle of your past
