

Cathedral "Astral Queen"

Visit "[Astral Queen](#)" on MotoLyrics.com

She walks under the moon, into the valley of fire
Astral Queen is dynamite
From this land of madness she possesses the key
A pyramid shape controls the ocean waves

She sails the seas of celestial grace
Where the blind man wanders
Her darkness carries the light
Soul and mind lost in her deep space

Her magic power has a hold, oh so strange
Blue Queen of cosmic beauty sanctions all the pain
Mans loveless world has frozen, trapped in her
domain, yeah
