(music:Griffiths/Jennings, lyrics:Griffiths)

I got those midnight circles
And I pray deceived
Ooh how I despise you (memories)
Tongue tasting moonlight
A tribute to my pain
We could last for ever (another game?)
Here in Autumn Twilight
Morphia cursed delight
I got those midnight circles
I drawn the hanged man
Movin towards Winter (yes I am)
Eyes seek inner spaces
Guardians of spheres
A touch of dementia's (fears)
Here in Autumn Twilight
Morphia cursed delight
And the sun shall never rise again
No more visions to be gained
Stricken mother of failings
Led into a shallow grave
Here I am now
So far away
Internal reflections
Another maze
Here I stay now
Caught between
Lives that you form
And the lives I've been
