(Jennings/Dorrian)
Myriad atomic spectress transcend
From the goodness of earth ad amen
Electric legion on a voyage way
Beyond the end yes
The end
Invocation through a cristal coffin pipeline
One second in eternity
A lifetime in this grave
Electric grave
Soul and mind are saved
Collosal incantation
Human mushroom cloud
Ambassador of this mortuary condemned
Under a scythe the silence of a din
Howling vortex begging repent for their sins yes
Their sins
Celebration of life we have found without them
Empire falling down
Our beauty shall reign
Electric grave
Soul and mind are saved
Collosal incantation
Human mushroom cloud
Press the final button now!
See the melting man
Radiation madness
Earth snorted by satan yeah!
From the electric grave
True believers saved
From the electric grave
From the electric grave
Astral stairs are paved
True believers saved
Snowblind, we burn we meditate
Final vision of people fading away
Together our souls will join minus hands
No promise but we shall find our land
From the last nightmare...
